

The Bergen Volunteers' Successful Aging Programs are eager to assist seniors in our community during this time of COVID-19.

### CHORE

For the past three months our CHORE program has been suspended, but in the month of July we will be slowly starting our reopening.

During the last two weeks of July we will be available to install **air conditioning units**. In order to qualify all clients need to verify that they have not recently and are not currently experiencing symptoms of COVID-19. In addition, social distancing and wearing masks for all volunteers and clients is mandatory. One will be provided if needed.

Call **201-489-7790** to schedule an appointment or email **chore@bergenvolunteers.org**.

In August, we hope to be able to add grab bars, lightbulbs, and smoke alarm battery installations. At this time we are not able to assist with any plumbing, rail installs or electrical jobs. Please let us know if you need referrals for other jobs.

### CHEER

We are slowly reopening our CHEER program, where volunteers are matched with seniors in order to do errands like grocery shopping and medication pickups, for contact-less delivery.

If this is a service that you would like to learn more about, or to get on our waitlist please call **201-489-9454 ext. 203**. Please call for referral information if shopping is required immediately.

Our Successful Aging Programs ensure that Bergen County senior and disabled residents are able to "age in place" and remain safe and independent in their homes. CHEER and CHORE are funded by the Bergen County Division of Senior Services, client contributions, and Bergen Volunteers fundraising activities.
