

All In A Days Work

Doing Good is Good for Business

Bergen Volunteers lend our expertise in coordinating rewarding volunteer experiences for your company's day of service. Over the last 50 years we have created long standing relationships with over 100 nonprofits in northern New Jersey. Whether you have 5 or 500 employees we can find a volunteer opportunity that is right for you to increase your organization's dedication to corporate social responsibility!

Benefits of Corporate Social Responsibility:

- Attracting new talent and retaining staff
- Increasing employee morale
- Building leaders with better critical thinking skills
- Improving communication patterns
- Developing organizational growth and productivity
- Creating positive brand recognition and reputation
- Advancing sales and customer loyalty

Let the **Bergen Volunteers** coordinate a day of service for your employees through our All In A Day's Work (AIADW) program!

To cover our time in coordinating enriching volunteer experiences we charge \$850 for up to 15 employees and \$50 for each additional employees. We share \$250 of this fee with the partner nonprofit agency. This fee helps support our direct service programs and our community partners.
